How To Avoid Nuisance Birds

Thanks to PROJECT WILDBIRD®, we now know what seeds and feeders to use to attract the desirable birds we love, but how do you avoid attracting those pesky, undesirable birds? Here are a few tips on keeping starlings, grackles, crows and other nuisance birds away:

1. Remove foods with milo or corn. These types of foods attract nuisance birds (plus, desirable birds don't prefer them).
2. Avoid feeding on the ground. Keep in mind this might deter some of the bigger desirable birds that prefer to feed this way. You can offer them hanging platform feeders instead.
3. Use a Zero-Waste® or Less Mess® product. This will help ensure that there is less leftover seed spilled on the ground for nuisance birds to feast on.
